Experience -

Nielsen (http://www.nielsen.com/) Software Engineer Markham, ON Oct 2017 - Present

- Developed a platform for automating data analysis tasks with React & Node.js to increase data analyst productivity
- Worked with a team to develop a set of systems used to process client data in a confidential environment on Google Cloud Platform, creating a valuable new product category
- Assisted in developing and debugging ad viewability code, while also creating web and mobile testing scenarios and assisting with external audits
- Contributed multiple components to an in-house testing platform, including one responsible for executing unit tests

Self-employed (http://dale.io)

Full-stack Developer & Consultant Toronto, ON Jan 2012 - Sep 2017

• As a part of a team, worked to create various user & admin-facing features for the video sharing community **Klick Ideas Exchange** (https://idx.klick.com/)

- Assisted a digital agency in developing a hybrid mobile application for a large medical conference
- Worked with a startup to develop and deploy their web application focusing on construction management
- Developed a full stack web solution for an unlaunched startup that deals with helping digitize businesses in the fleet management

Mozilla Foundation (https://mozilla.org) Front-end Developer (contract) Toronto, ON May 2013 - Jan 2014

- Used designer-built wireframes to build pages for the Webmaker homepage leading up to and after its launch
- Assisted in implementing features and fixing cross-browser bugs for the upcoming Webmaker Profiles application
- Added new features and fixed existing bugs in a large codebase inherited by the project
- Participated in code reviews and bug triage

Seneca College

Computer Programming & Analysis Toronto, ON Jan 2010 - Apr 2013
