### Languages:

TypeScript, Go, Rust, Python

### Frameworks & Libraries:

React.js, Koa, Express

### Tools & Services:

AWS, Google Cloud, PostgreSQL, Git, nginx, Docker

---

## Experience

---

### Test Double (<https://testdouble.com/>)

Senior Software Consultant

Remote

Sep 2021 - Present

- Coached a development team through their transition to a new language stack while assisting with delivery
- Assisted in migrating large legacy services to modern tech stacks in order to future-proof codebases
- Mentored fresh developers at clients in order to help them become confident contributors
- Iterated quickly on new features and bug fixes across various languages and tech stacks

### Nielsen (<https://www.nielsen.com/>)

Software Engineer

Markham, ON

Oct 2017 - Sep 2021

- Developed a platform for automating data analysis tasks with React & Node.js to increase data analyst productivity
- Worked with a team to develop a set of systems used to process client data in a confidential environment on Google Cloud Platform, creating a valuable new product category

- Assisted in developing and debugging ad viewability code, while also creating web and mobile testing scenarios and assisting with external audits
- Contributed multiple components to an in-house testing platform, including one responsible for executing unit tests

### **Self-employed** (<https://dale.io>)

Full-stack Developer & Consultant

Toronto, ON

Jan 2012 - Sep 2017

- As a part of a team, worked to create various user & admin-facing features for the video sharing community **Klick Ideas Exchange** (<https://idx.klick.com/>)
- Assisted a digital agency in developing a hybrid mobile application for a large medical conference
- Worked with a startup to develop and deploy their web application focusing on construction management
- Developed a full stack web solution for an unlaunched startup that deals with helping digitize businesses in the fleet management

### **Mozilla Foundation** (<https://mozilla.org>)

Front-end Developer (contract)

Toronto, ON

May 2013 - Jan 2014

- Used designer-built wireframes to build pages for the Webmaker homepage leading up to and after its launch
- Assisted in implementing features and fixing cross-browser bugs for the upcoming Webmaker Profiles application
- Added new features and fixed existing bugs in a large codebase inherited by the project
- Participated in code reviews and bug triage

---

## Education

---

### **Seneca College**

Computer Programming & Analysis

Toronto, ON

Jan 2010 - Apr 2013

---

## Projects

---
